

Pureline™

by Supera Anesthesia  
Innovations, LLC

# Start Saving Today with the Pureline M6000 Anesthesia Machine with O2 Concentrator.

*Stop paying for tanks, refills, and deliveries. Stop wasting time on tank billing, scheduling, management, and maintenance. Instead, get your oxygen for free, the natural way—from the air.*

## Savings for you, safety for your patients.

Supera Anesthesia Innovations is proud to bring the revolutionary Pureline M6000 with O2 concentrator to veterinarians in the U.S. for the first time. While similar machines have been in use in Europe for years, Supera has perfected the technology, added safety features, and now is making this money-saving equipment available here. The Pureline Anesthesia Machine with O2 Concentrator is FDA approved, UL tested, and backed by the industry's best warranty—a full ten years.

- Extracts medical-grade O2 from the air, delivers it on demand
- Energy efficient; average 12 cents a day to operate
- Built specifically for veterinary use
- FDA approved, UL tested
- Audible and illuminated safety alerts
- Backup oxygen supply with O2 flush
- Made in the USA, state-of-the-art manufacturing
- Industry-best 10-Year Warranty

## Pureline pays for itself in as little as one year.

Want to see how the savings could pencil out for your practice? ►

## Pureline pays for itself in as little as one year.

By eliminating the cost of oxygen tank rental or purchase, refills and delivery, management, Pureline can pay for itself very quickly. We've calculated these sample yearly savings based on an average three-to-four doctor practice, using anesthesia four hours a day at an average flow rate of 2 l/pm, five days a week.

Includes patented pressure relief valve to ensure pet safety; with just a press of the ventilation button, you can instantly restrict the pressure to a safe level, while effectively ventilating the patient.

### Using E Tanks

Yearly usage	124,800 liters
E tank volume	680 liters
Tanks per year*	184
Refill per tank	\$20.00
Weekly delivery (52 per year)	\$1,040.00
<b>TOTAL per machine</b>	<b>\$4,720.00</b>

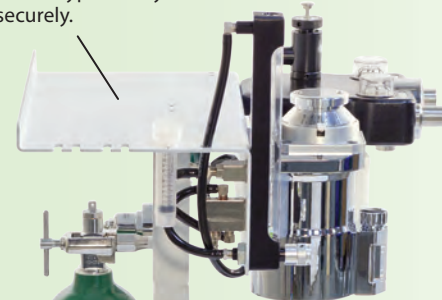

M6000 - \$4,995 ÷ 4,720 = 1.06 years

### Using H Tanks

Yearly usage	124,800 liters
H tank volume	7,051 liters
Tanks per year	18
Refill + delivery per tank	\$80.00
Tank rental per year	\$110.50
<b>TOTAL per machine</b>	<b>\$1,550.50</b>

M6000 - \$4,995 ÷ 1,550.50 = 3.22 years

Heavy-duty shelf holds all monitor types safely and securely.

## No extras to buy, easy operation too.

- No tanks, hoses, regulators to buy, store, or replace—ever
- Oxygen is “on demand”—never run out of a supply of oxygen
- Accepts all types of vaporizers
- 0-4 l/pm precision flow meter
- Easy on/off; controls are large and easily accessible
- Sturdy chassis and low center of gravity for extreme stability
- Adult, pediatric, and non-rebreathing circuits included
- Heavy-duty rebreathing bags included
- Quiet 40-dBA operation
- Simple, durable, maintenance-free valves
- Uses standard E tank for backup and oxygen flush

Stability by design—weight is centered within the frame.
